1. All dimensions are in square centimeters, and measured from front-to-front including corner cut-out dimensions.
2. Dimensions, alterations, and drawings do not apply only if they cannot be subject to change for technical reasons or designations already in existence. A final size may vary from the standardization V. Drawings will be at least 1:50
Images produced by statistical process control can represent the actual form, features, specifications, fit/gaps and tolerances. The drawing shows the right-hand-side view - orientation, as far as possible physical surface and feature definition.
